By now many of you have heard about Bell Technical Solutions coming into the Central Offices. This is not the only case of a contractor doing our work but it is the most recent. The time has come and we must make a final stand and show Bell that we will no longer tolerate them taking away our jobs. These are unique times, which call for unique measures that will help us move forward and reclaim what is ours. Your Local Executive is taking steps to initiate a strategy that will start this process. It will then be up to you, the membership the backbone of any union to stand united and rally behind your union. There are many challenges that lie ahead but together we can overcome them and restore the balance of power. We are asking for your patience and most importantly your support. In the interim remember we do not train people that will take our jobs, do not help the company in their goal of downsizing our bargaining unit.

In Solidarity,

Local 25
